PROFILE

Graduate from the University of Oklahoma's Price College of Business with a Bachelor's in management information systems (MIS), currently pursuing a Master of Science in Business Analytics. Skilled in Python, SQL, data visualization, and process optimization, with proven experience in project management, and customer support. During an internship at SageNet, developed a company-wide data catalog in SharePoint, streamlining information accessibility and supporting business operations. Demonstrated strong leadership and financial management abilities as Treasurer of Phi Delta Theta, successfully managing a $200K budget for operations and events. An Eagle Scout with a passion for leveraging technology to solve complex problems and drive business value, seeking opportunities to apply technical and analytical expertise to innovative challenges.
